CROSSWALK OF HUD NOFO PERFORMANCE QUESTIONS AND SIMTECH DASHBOARDS

The points associated with System Performance Measurements (SPMs) have more than doubled in this year's NOFO competition. As a result, it is more important than ever to understand the SPMs and be able to establish plans to improve them into local planning efforts. The slide below was provided by the National Alliance to End Homelessness (NAEH) and shows the significance of these measures in both the CoC NOFO and the Unsheltered and Rural NOFO.

System Performance	2021 CoC NOFO	2022 CoC NOFO	2022 Unsheltered & Rural NOFO
Reduces the number of homeless individuals and families	1	10	3
Reduces the number of first-time time homelessness among individuals and families	3	3	3
Reduces the length of time individuals and families remain homeless	6	13	3
Demonstrates and describes how the CoC will increase the rate in which individuals and families move to permanent housing destinations or continue to reside in permanent housing projects	5	13	3
